

Vehicles Services for All

Let's start scalability!

Private Sale - November 2023

Why Spotiz?

Market potential

The vehicle services and sharing economy markets have significant growth potential, with urbanization, population density, and garage services and parking are driving demand for innovative solutions.

Disruption of Traditional Models

The sharing economy model has disrupted various industries, and car services are no exception. Spotiz revolutionizes the way people win money, find, book, and utilize vehicle services with its tokenization model.

Innovative Technology

Geolocation, real-time availability tracking, automated payment systems, and integration with smart city infrastructure are proprietary technology providing a competitive edge.

Sustainability

We encourage carpooling, reduce traffic congestion & pollution, and maximize parking space utilization align with broader societal and environmental goals. That is positive impact for our users.

Scalability

Our services are already available in Europe and India. Our technology is built up for fast scalability with multi-currencies, multi-languages and multi-fiscality management.

What is Spotization?

The SPOT : our digital voucher (NFT)

SPOT is our single currency for :

- pay for application membership (10CHF/year)
- reserve services for users: at least 2.5% of the amount,
- pay commissions to Spotiz in advance for providers (10% of the amount of the service sold),
- reward user commitment with free tokens.

1 SPOT Token = 147.15 CHF

The aim is also to generate and share the financial value created with our loyal users. With the SPOT Token, members get tokens of app usage:

"The more I Spotize, the more I earn!"

The SPOT Token can also be resold on an exchange (iCapitalior, ...).
